

Over 30,000 users trained by experienced Business Intelligence consultants.

"I appreciate the fact that we were able to easily deviate from the book when possible to cover more interesting & advanced topics. [Instructor] is very knowledgeable and honest about BO XI capabilities, Thanks."
- John F, FedEx

"[Instructor] is very knowledgeable in this subject and is able to communicate information in an easy, understandable manner. I look forward to doing the advanced class..."
- Kimberley G, Rogers Wireless

"This instructor gets a 10 out of 10. He is brilliant and has the expertise and teaching methodology that makes this type of course fun and educational. Highly recommend for future courses!!! OUTSTANDING!!!!!!!!!!"
- Attendee, Burger King Corporation

Course Description

This course is designed to give developers the basic skills needed to load data and develop Qlik Sense visualizations. See course details below. Modules can be mix and matched with our advanced development course to fit your needs.

Audience

This course is targeted for end-users and IT professionals who want to gain an understanding of the fundamental capabilities of Qlik Sense and be able to load data into Qlik Sense and create meaningful visualizations.

Objectives

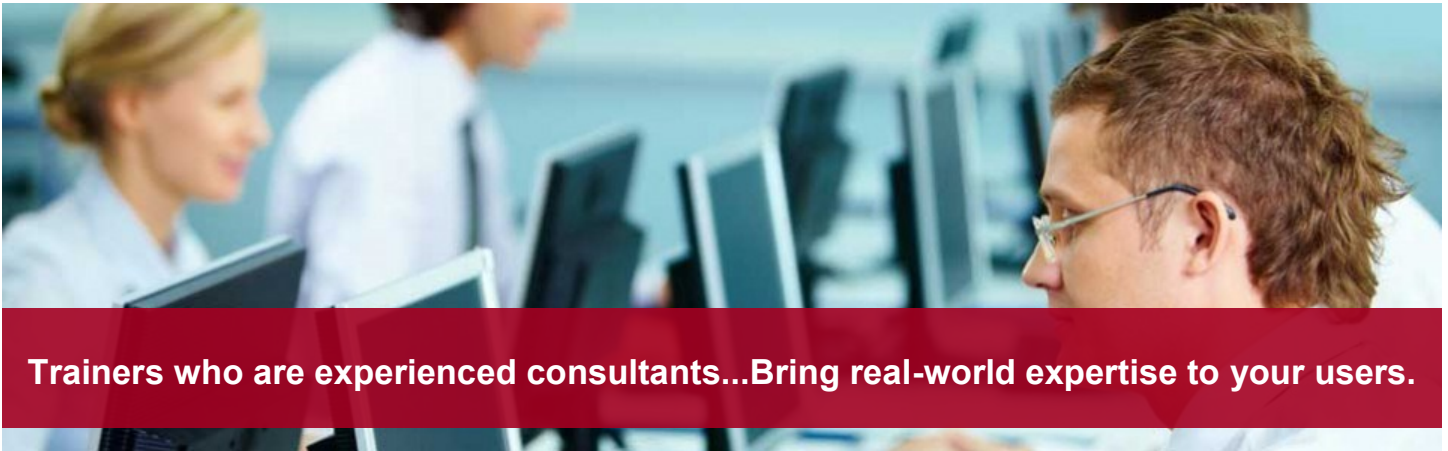

After completing this course, students will be able to load data into Qlik Sense using data sources such as Microsoft Excel and Relational Databases and understand the associative data model concepts of Qlik Sense. Users will also be introduced to basic scripting capabilities of Qlik Sense, writing formulas and using functions. This knowledge will then be applied to create visualizations with Charts, Maps, Tables and Pivot Tables. Users will also learn how to create Stories and share information with others.

Duration - 2 Days

Version - 3.x

Prerequisites

Basic understanding of writing formulas and using functions using tools such as Microsoft Excel.

Trainers who are experienced consultants...Bring real-world expertise to your users.
